## **DETAILED ACTION**

## **Drawings**

1. The drawings are objected to because the drawings in there present form they are very difficult to ready. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

## Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2834

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

- 3. Claims 8-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Brutschin (PG Pub 20030159506).
- 4. Considering claim 8, Brutschin (Figures 1 + 2a) teaches a membrane (5) an oscillatable unit (2) secured to said membrane; a sending/receiving unit (6), which excites said oscillatatable unit to oscillate and which receives oscillations of said oscillatable unit; a control/evaluation unit (10), which, on the basis of the oscillations of said oscillatable unit, monitors and/or determines the process variable, wherein; said sending/receiving unit comprises a disk-shaped, piezoelectric element (15); and said disk-shaped, piezoelectric element has at least two segments, which are essentially polarized oppositely to one another (paragraph 0044) and at least two electrodes (18, 20) of opposite polarity are applied to the side of said disk-shaped, piezoelectric element facing away from said membrane.
- 5. Considering claim 9, Brutschin teaches the claimed invention as described above in claim 8.
- 6. Considering claim 10, Brutschin teaches the claimed invention as described above in claim 8.
- 7. Considering claim 11, Brutschin teaches the claimed invention as described above in claim 8.
- 8. Considering claim 12, Brutschin teaches the claimed invention as described above in claim 8.

Art Unit: 2834

9. Considering claim 13, Brutschin teaches the said membrane at least partially with a conductive coating (paragraph 0043).

10. Considering claim 14, Brutschin teaches the side facing said membrane is connected electrically conductively with ground (paragraph 0039).

## Conclusion

- 11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to BRYAN P. GORDON whose telephone number is (571)272-5394. The examiner can normally be reached on Monday-Thursday 8:00-5:30, Friday 7:30-4:00.
- 12. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Darren Schuberg can be reached on 571-272-2044. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
- 13. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
